Incentive Schemes for Research and Consultancy @ OCT

One of the most important criteria in ranking (NIRF, QS etc) and accreditation (NAAC, NBA) process is the research output of the faculty members of the University/ Institute. The National Institutional Ranking Framework (NIRF), approved by the MHRD outlines a methodology to rank institutions across the country. Research is one of the major parameters outlined in the framework covering publications (in particular their quality), patents (filed, published, granted and licensed), projects, professional practice and grants therefore it is very important to gradually implement a strong foundation for research, development and innovation in the Institution to address the requirements of the next decade.

In this context, there is need for concerted R&D effort to better position the Institution to meet these challenges. Faculty of the institution play a vital role in making this transition from a 'teaching only' Institution to a world-class Institution that fosters research and development inter-twined into teaching and learning. While faculty have to handle their regular requirements of teaching and learning, they are also increasingly being required to take up quality research and development work.

Quality research and development work requires time, concerted effort and a focussed environment therefore it is necessary to incentivise all such R&D efforts in order to enthuse and motivate faculty members to spend quality time in a concerted manner, as most often the time and effort spent in research extends way beyond the confines or the operating hours of the Institute

This document puts forth the policy of the Institution towards research and development activities.

OBJECTIVE OF THE SCHEME

The primary objective of the proposed incentive scheme is to motivate the faculty members of our Institute to undertake quality research, consultancy and other research related activities. This policy document describes various incentives to encourage and promote the culture of research and innovation amongst the faculty members and indirectly amongst students.

SCOPE OF THE SCHEME

Oriental Group of Institutes, Bhopal wishes to create an environment that fosters a culture of innovation and research leading to development of processes, tools, products or services and to establish OGI Bhopal as one of the pioneer research Educational Group.

This scheme covers all faculty members of all department of the Institute. The scope of the scheme envisages, in particular:

1. To motivate our faculty members to concentrate on research related activities, in addition to the teaching, so as to publish research articles in reputed refereed International and National

- journals with impact factor and to pursue efforts to write books, monographs for publication by International and National publishers of repute
2. To encourage our faculty members to submit proposals and secure funded research projects from various funding agencies in India and Abroad.
 3. To undertake consultancy projects sponsored by Government & Private, Industrial and other organizations.
 4. To enthuse faculty to pursue and complete their PhD thereby enhancing the total number of doctorates in the Institution
 5. To motivate faculty and staff to continue learning further through live/online courses/skill training programs and thereby significantly enhance their capabilities and exposure in order to become a sought-after resource in the country
 6. To encourage faculty members to participate in various Conferences, Seminars, Workshops, STTP and FDPs
 7. To motivate faculty to actively guide scholars towards their M Tech/ PhD work
 8. To motivate faculty to build strong Industry-Institute Partnership
 9. To evince interest among the members of faculty so that they take efforts to establish collaborative research projects with their counterparts in reputed Institutions.
 10. To encourage creativity in the minds of faculty members, so that they make original contributions by way of products, concepts etc. and obtain patents.
