ORIENTAL TIMES, June-2023

EDITORIAL

Oh, what a magnificent world we inhabit! Our environment is like a big colorful playground, filled with delightful surprises! It's a world of wonder, with trees dancing in the breeze and flowers blooming with glee. The air we breathe is fresh and clean, and the sunshine kisses our cheeks, making us smile. Birds sing their cheerful melodies, and butterflies flutter by, spreading happiness everywhere they go.

However, human activities have taken a toll on our environment, leading to climate change, pollution, and habitat destruction.

In a world that is grappling with such pressing environmental issues, our college took a commendable initiative by organizing an inspiring event on World Environment Day to celebrate Environment week at Oriental campus in association with NGO Sanidhya Bhopal witnessing UNICEF, EPCO NHM and Govt of M. P. officials.

Our honorable guests were welcomed by saplings as memorials depicting the environment. Performances such as dances, songs and acts were performed by our students to stimulate a feeling of responsibility towards our environment in the hearts of our attendees.

A pledge by NSS students and guest speeches were also part of the event that helped nurture the thoughts about our environment in our attendees.

The event served as a powerful reminder of our collective responsibility to protect and preserve our planet for future generations. It is through such events that we can raise awareness, ignite conversations and discussions, and inspire action among our college community.

Further, you will read more about the Environment Week in this edition of our Newsletter.

We will meet again in the further editions of our newsletter. Until then, adios!

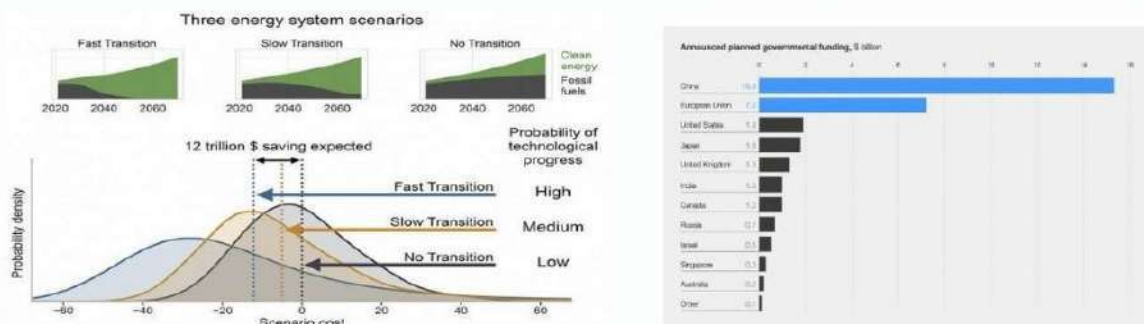

TECHNICAL NEWS

Latest News in Technological world

1. After receiving approval from CEO Tim Cook, Apple is planning to release an augmented reality and virtual reality headgear in 2023. Under Cook's leadership, Apple has already achieved success with the launch of two successful products that are part of the iPhone ecosystem: AirPods and the Apple Smartwatch. Therefore, it will be interesting to see how the soon-to-be-released augmented reality and virtual reality headsets from Apple affect the story of the global technology giant.

2. As the world moves away from carbon, green hydrogen, nuclear fusion, and other technologies will advance rapidly in 2023. By 2050, switching from fossil fuels to renewable energy may save economies \$12 trillion. Continual improvements in technology over the past decade, the cost of solar and wind power have fallen drastically.

3. Quantum computing uses subatomic particles to process and store information. Quantum technology promises to tackle complicated problems quicker than the greatest processors.

CULTURAL SECTION

Farewell Party for Final Year Students

The Institute was filled with mixed emotions as the college bid farewell to its graduating class of 2023 in a grand farewell party "HASTA LA VISTA" on 19.5.2023. The event marked the end of an era for the students who had spent years studying, growing, and creating memories together. The farewell party, organized by the OCP and the student council, was a memorable affair that brought together students and faculty members. The event was filled with laughter, tears, and

heartfelt speeches as the graduating class prepared to embark on their next chapter in life.

OCP organized Fresher Party for First Year Students

Every student eagerly awaits the college's most notable event, the "FRESHER'S PARTY," right from the time of their admission. It was a memorable day in the lives of every fresher from the academic year 2022-2023 batch at Oriental College of Pharmacy, which took place on May 19, 2023. The main objective of this party was to give a warm welcome to new students. It fosters self-confidence among students and enhances their creativity. Various exciting programs and events like ramp walks, traditional, fusion, and contemporary dances, enchanting singing performances, were held creating an enriching experience.

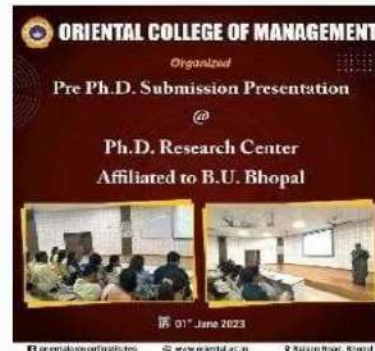

Excellent result of B Pharm Final Year Students

It is a matter of pride for the institute that students have achieved remarkable success in the final year examination results. Neelam Lalwani has clinched the first position, followed by Khushi Gupta in second place, and Srishti Bagh securing the third position in the Institute. Their outstanding achievements have not only brought glory to our college but also enhanced the reputation of our institution.

"As MBA students, our desires revolve around obtaining lucrative offers and placements, which serve as the ultimate goals in our pursuit of an MBA. However, in order to thrive in the corporate world, we must undergo a variety of training programs. The college has generously offered numerous opportunities to assist me in shaping my future, and I am immensely grateful for the extraordinary possibilities they have placed within my reach."

THE ORIENTAL SCHOOL

Culmination Of Summer Camp

Date – 01/05/23 -30/05/23

The Oriental School had organized Summer Camp this year also from 1st May to 30th May to benefit and enhance and refine their talents. The participants have enjoyed it thoroughly and with the happy faces it came to its end.

Over the years this summer camps have become very popular among the students as well as their parents. In this camp also, along with the children, their grandfather and father also participated and tested their physical and mental abilities.

The participants not only acquire skill in activities like Music, Dance, Art & Craft, Karate, Lawn Tennis, Football, Kabaddi, Dodge Ball, Cricket, and Swimming but also made new friends, created memories, and overcome their fears with fun and pleasure.

With endless fun, effort and team spirit the Summer Camp reached its destination to the culmination. The participants were given certificates with the promise to meet again soon. Indeed, it was an event to use the summertime in a beneficial way.

Here are the glimpses;

Super Mom Contest

DATE – 04/06/23

"A Mother is the one who can take the place of others but whose place no one else can take." -Cardinal Marmillad

Super Mom

The Oriental School believes in this concept and had organized an event contest in Association with NH 12 creative women's club. The event was full of excitement and zeal. The gorgeous and creative mothers with their kids had shown their talents.

The contest was organized in three rounds where the mothers played the role of Super Chef and the Supermodel. They also showcased their talents in the Super talented. All the participants qualified through these levels of competitions and reached the final stage.

Indeed, the program was wonderful with full of excitement and fun. The Oriental School along with NH 12 Creative Women's Club has given a platform to the mothers who are always busy looking after their families, so they can have a day for themselves only.

Here are the glimpses;

ARTICLE FROM THE STUDENT'S DESK

Technology before and after Covid-19

Think science and technology and the image of mobile phones appears. A gadget that causes constant distraction, social disruption, unending workdays, ongoing expenses, cause of accidents, health problems, youth crimes, frustrating end of a lively skillful youth. but the curtain changes.

The Covid-19 pandemic has an unprecedented impact on the education of children around the world. With the enforcement of strict social distancing and school closures there has been rapid widespread and potentially permanent changes to traditional modes of teaching and learning. To minimize educational disruption countries around the world have swiftly shifted to online and remote learning to ensure sustainable, high quality and flexible teaching and learning.

Technology can provide learning continuity when students cannot be physically present in their classrooms. there is an urgent need for professional learning initiatives to support teachers to better use technology and blended methods of teaching and learning.

Companies such as Google, Facebook are striving hard to ensure people get only accurate and verified information. Fitness and health brands conduct live workout sessions on their apps. Wireless thermometers, medical equipments at toll gates, offices, airports, malls, stations, hotels, and public places have assisted in monitoring and identifying the individuals who might need aid.

It is we humans who have to adapt to changes in technology faster and continue to invest in building for better.
